

## External Domes - Pendant domes for fixed cameras

### SA220

**SA220  
SSWB Wall Bracket**

**Attractive and compact indoor/outdoor fixed camera dome housing. Also available for popular unitized PTZ mini-domes allowing a common enclosure for installations where combinations of fixed and PTZ units are used.**

The SA220 has been designed for general purpose installations where aesthetic appeal is important.

Access to the camera is via the front acrylic cover. The cover is attached to the main housing by three M4 pan philips screws. A versatile camera mounting bracket allows the correct positioning of the camera lens.

Two wall mount brackets and a pendant adaptor are available for the housings. Custom droppers should provide a 1" B.S.P. female socket for pendant adaptors to thread into. Wall brackets are designed to be used with Strongabuilt standard pole and corner mount adaptors.

Tamper switches and lens liners are available as options.

### SS220

**SS220  
SSWB Wall Bracket**

**Attractive polished Stainless Steel fixed camera dome housing. Also available for popular unitized PTZ mini-domes allowing a common enclosure for installations where combinations of fixed and PTZ units are used.**

The SS220 has been designed for general purpose installations where corrosion is a consideration.

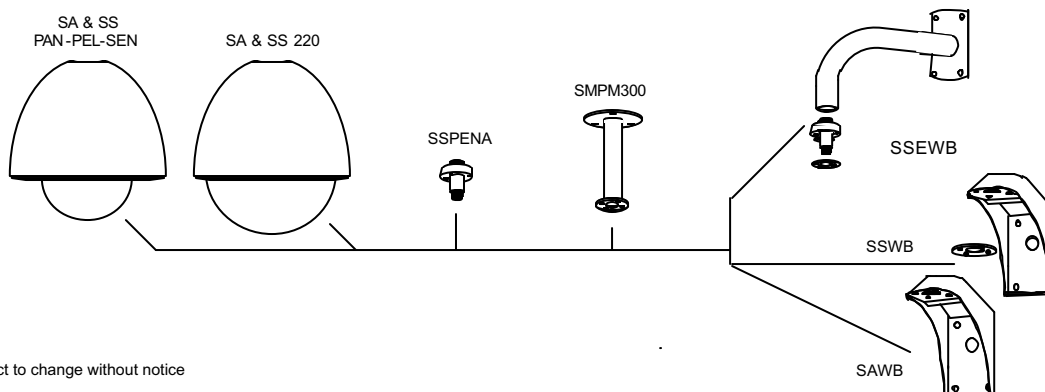

Access to the camera in the SS220 is via the front acrylic cover. The cover is attached to the main housing by three M4 pan philips screws. A versatile camera mounting bracket allows the correct positioning of the camera lens.

Two wall mount brackets and a pendant adaptor are available for the housings. Custom droppers should provide a 1" B.S.P. female socket for pendant adaptors to thread into. Wall brackets are designed to be used with Strongabuilt standard pole and corner mount adaptors.

Applications: Waterfront and corrosive environments.

Tamper switch and lens liner are available as options.
